Chilkat Protector mask. A project designed by Lily Hope that I wove with Alaskan weavers via The miracle of Zoom. It is in honor of my grandchildren who are in training to be protectors in the future, with nose ring and tattoo

LUCY DEFRANCO

"I am working on fingertip towels from *Twill Thrills*, page 20. I'm using 16/2 linen in natural (warp, and weft hems) and bleached (weft). It is set at 28 epi, 2/dent.

The red silk spools are antique from my mother's sewing stash. I put them there in the effort to prevent weft from wrapping around the metal bar of the shuttle. It works most of the time."
